

PATENT
Docket No.: 200701/1061

#6/A
PY
8.16.01

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants : Schultz et al.

Serial No. : 09/757,992

Cnfrm. No. : 8517

Filed : January 10, 2001

For : DETECTION OF SINGLE NUCLEOTIDE
POLYMORPHISMS

Examiner:
To Be Assigned

Art Unit:
1645

PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Box: Missing Parts

Dear Sir:

Please amend the above-identified application as follows:

In the Abstract of the Disclosure:

Please replace the Abstract of the Disclosure on page 54 with the following:

A' The present invention relates to a method of detecting single nucleotide polymorphisms by blending a target nucleic molecule, a oligonucleotide primer, a nucleic acid polymerizing enzyme, and nucleotide analogs, each type being present in a first amount, to form an extension solution where the oligonucleotide primer is hybridized to the target nucleic acid molecule to form a primed target nucleic acid molecule and the nucleic acid polymerizing enzyme is positioned to add nucleotide analogs to the primed target nucleic acid molecule at an active site. The oligonucleotide primer in the extension solution is extended by using the nucleic acid polymerizing enzyme to add a nucleotide analog to the oligonucleotide primer at the active site. The amounts of each type of the nucleotide analogs in the extension solution after the extending step are then determined where each type is

Cont
A'
present in a second amount. The type of nucleotide analog where the first and second amounts differ is identified as the nucleotide added to the oligonucleotide primer at the active site.

REMARKS

To shorten the length of the Abstract of the Disclosure, applicants have replaced the filed version of the Abstract with a shorter version thereof. Pursuant to 37 CFR § 1.21, attached as an Appendix is a version of the Abstract of the Disclosure with markings to show changes made.

Applicants also direct entry into the application of the accompanying sequence listing.

Respectfully submitted,

Date: June 8, 2001
